Charles Dickens 200 Years

DID YOU KNOW THAT 2

Charles John Huffam Dickens was born on the 7th of February 1812 and died on the 9th of June 1870 at the age of 58. He was one of the most famous and prolific novelists of the Victorian period. Many of his books were published serially in magazines, which explains the frequent suspense effect at the end of individual chapters. Charles Dickens has been respected worldwide as a writer for his concern for the poor, unique characters he created and for his sense of humor. In 2012 we are celebrating the 200th anniversary of his birthday.

Teachers' Notes

Before asking students to read the text ask them to discuss the questions in Ex.1..

You can use the following technique:

- Students stand in two lines facing each other.
- Teacher writes the questions on board.
- Students answer the first question with the person opposite.
- Then the teachers ask students in one line to move one person to the right.
- Everybody has a new partner now.
- With new partners students discuss the second question.
- They change partners at the teacher's signal, before every question.

Try it, it's fun. And students don't have to sit at their desks all the time.

You can then ask the group what they think all the questions have in common.

Then ask the students to read the text and do exercises 2 and 3.

You can also take the students to the following websites:

- <http://www.portsmouthfestivities.co.uk/>
- http://www.bbc.co.uk/history/interactive/games/dressing_up_f/index_embed.shtml - great interactive game showing the fashion of Tudor and Victorian times.
